R35 Coil Bracket for Nissan RB20/25/26 Bracket Only

- Includes mounting hardware

Supports:

- RB20DET
- RB25DET (Non-Neo)
- RB26DETT

Instructions:

1.) Remove the RB igniter, RB ignition coil cover, RB ignition coils, and RB ignition harness from the valve cover.

2.) There are two ways to install the Haltech R35 coil bracket for the Nissan RB.

- The first method uses the three taller spacers, which allows the use of standard full-length R35 ignition coils. However, this does not allow the ignition coil cover to be reinstalled.
- The second method uses the three shorter spacers, which allows the ignition coil cover to be reused. This method requires the R35 ignition coils to be shortened using the shorter stalks included in the kit.

3.) To shorten the R35 ignition coil, first pull it apart as shown below:

The parts from left to right are: coil body. resistor. spring, upper boot, stalk, lower boot. Reassemble the coil in the same order, but replace the stalk and spring with the ones included in the kit.

The image below shows a comparison between a standard R35 ignition coil and the shortened version.

4.) Before powering up the ignition coils using the Haltech R35 ignition coil harness, ensure that the Haltech ECU is configured to use direct fire, falling edge, constant charge dwell mode, and the recommended R35 ignition coil dwell times. Failure to do so may damage the ignition coils, resulting in no spark or reduced spark energy.

Haltech Off-Road Usage Policy

In many states it is unlawful to tamper with your vehicle's emissions equipment.

Haltech products are designed and sold for sanctioned off-road/competition, non-registered or non-emissions controlled vehicles only and may never be used on a public road or highway. Using Haltech products for street/road use on public roads or highways is prohibited by law unless a specific regulatory exemption exists (more information can be found on the SEMA Action Network website www.semasan.com/emissions for state by state details in the USA).

It is the responsibility of the installer and/or user of this product to ensure compliance with all applicable local and federal laws and regulations. Please check with your local vehicle authority before purchasing, using or installing any Haltech product.

Installation of Haltech Products

No responsibility whatsoever is accepted by Haltech for the fitment of Haltech Products. The onus is clearly on the installer to ensure that both their knowledge and the parts selected are correct for that particular application. Any damage to parts or consequential damage or costs resulting from the incorrect installation of Haltech products are totally the responsibility of the installer.

Haltech Limited Warranty

Unless specified otherwise, Haltech warrants its products to be free from defects in material or workmanship for a period of 12 months from the date of purchase. Proof of purchase in the form of a copy of the original purchase invoice, receipt or bill of sale which indicates that the product is within the warranty period, must be presented to obtain warranty service. If the Haltech product is found to be defective as mentioned above, it will be replaced or repaired if returned prepaid along with proof of purchase. This shall constitute the sole liability of Haltech. To the extent permitted by law, the foregoing is exclusive and in lieu of all other warranties or representations, either expressed or implied, including any implied warranty of merchantability or fitness. In no event shall Haltech, be liable for special or consequential damages.

Product Returns

Please include a copy of the original purchase invoice, receipt or bill of sale along with the unused, undamaged product and its original packaging. Any product returned with missing accessory items or packaging will incur extra charges to return the item to a re-saleable condition. All product returns must be sent via a freight method with adequate tracking, insurance and proof of delivery services. Haltech will not be held responsible for product returns lost during transit. The sale of any sensor or accessory that is supplied in sealed packaging is strictly non-refundable if the sealed packaging has been opened or tampered with. This will be clearly noted on the product packaging. If you do not accept these terms please return the sensor in its original unopened packaging within 30 days for a full refund.

Returning a sensor or accessory product within 30 days of purchase: Product may be returned for credit or full refund. (Any sealed packaging must not have been opened or tampered with.)

Returning a sensor or accessory product after 30 days of purchase: Product may be returned for credit only (no refunds given) and is subject to a 10% Restocking fee. (Any sealed packaging must not have been opened or tampered with.)
