

ELITE 1000/1500

Mazda 13B Series

Flying Lead

Ignition Harness

(HT - 130308)

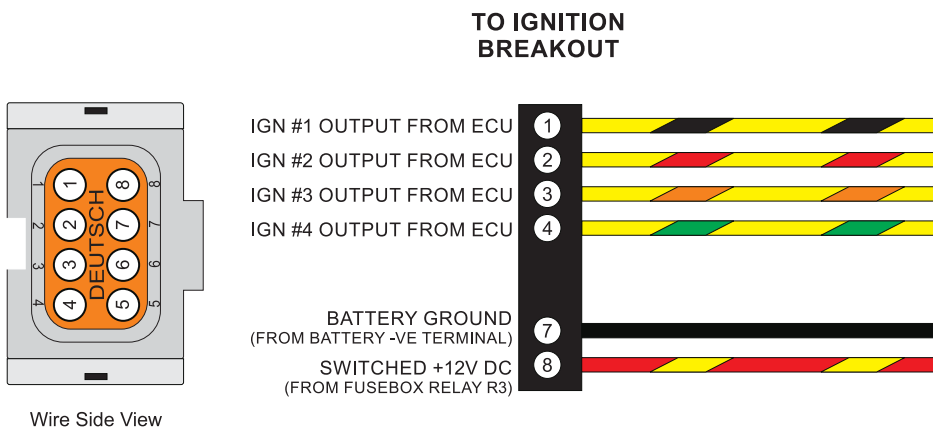

Harness Overview

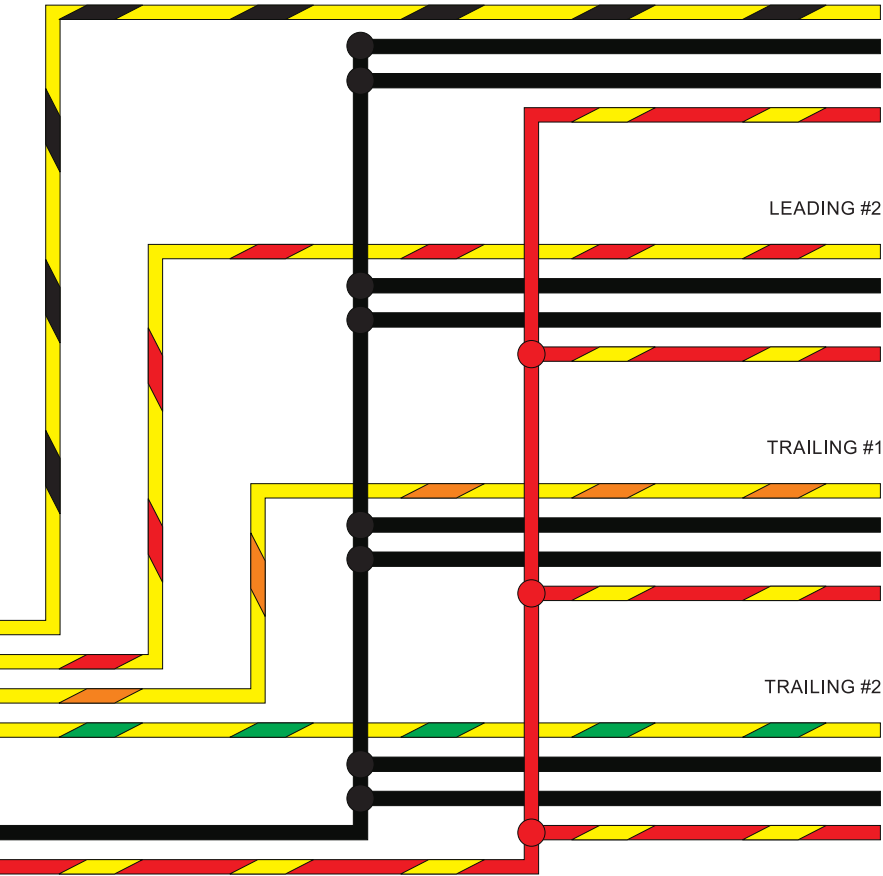

The Haltech flying lead ignition harness is designed to allow the end user alternative options for their ignition system.

The Haltech flying lead ignition harness can be wired to existing ignition modules or used to trigger a CDI system.

Please refer to the documentation provided with the module for wiring and software setup information.
